## The 5<sup>th</sup> Multidisciplinary International Conference

*"Transforming Governance through Interdisciplinary  
Synergy for Global Welfare"*

UNIVERSITAS BOROBUDUR

Supported by:  
Meira Visi Persada

2025

# RATIONALE

In an increasingly complex and digitized era of globalization, public governance faces multidimensional challenges that transcend national borders. Climate change, socio-economic inequality, technological disruption, geopolitical crises, and the long-term effects of the global pandemic have all revealed the limitations of conventional governance models, which often remain sectoral and fragmented. These global developments demand a fundamental transformation in how governance systems are designed, managed, and understood models that are more adaptive, inclusive, and sustainable. These global challenges are particularly visible. While some regions continue to play a central role in driving economic growth and technological advancement, it also faces deep and persistent governance issues. Legal frameworks are being tested by the rise of digital technologies, requiring new thinking around data governance, AI regulation, and access to justice. Environmental degradation, uneven democratic transitions, political polarization, and widening digital inequality reflect structural gaps that affect public service delivery and institutional legitimacy.

At the same time, the growing use of artificial intelligence, big data, and digital platforms in public use offers both opportunities for innovation and complex dilemmas. Contemporary issues such as the integration of AI in policy-making, the exploitation of data in public service delivery, and the tension between economic and ecological priorities require knowledge-based, interdisciplinary responses. Education systems are under pressure to respond to digital transformation, reduce learning gaps, and prepare students for a constantly evolving world. Meanwhile, healthcare providers face growing demands for services, the ethical use of health data, and the need to build systems that are both equitable and resilient. These are not challenges that can be addressed through single-discipline or domestic frameworks alone. What is needed is global dialogue and collaboration that draws upon diverse fields of expertise and shared international experience.

**MIC 2025 builds on the legacy of previous conferences, MIC 2021, MIC 2022, MIC 2023, and MIC 2024, which have served as important platforms for research, policy dialogue, and international cooperation.**

**Hosted by a doctoral program in law of Universitas Borobudur**, the conference highlights the critical role of legal scholarship in shaping governance that is ethical, accountable, and responsive to emerging global trends. At the same time, it creates space for dialogue among scholars and practitioners from a wide range of disciplines, including law, education, health, economics, technology, environmental science, sociology, and psychology.

By bringing together multiple perspectives and areas of expertise, MIC 2025 aims to generate actionable ideas and policy solutions that are human-centered and future-oriented. Whether through legal reform, educational and economical innovation, stronger public health systems, or inclusive technological governance, the conference is committed to advancing governance practices that contribute to global well-being and sustainable development.

# THEME

## Transforming Governance through Interdisciplinary Synergy for Global Welfare

The theme of MIC 2025 underscores a fundamental rethinking of governance practices by harnessing interdisciplinary collaboration to enhance human well-being on a global scale. It recognizes that the complex problems faced by modern societies such as climate change, digital disruption, public health crises, political instability, economic inequality, and food insecurity cannot be resolved through single-discipline or siloed approaches. This theme calls upon scholars, practitioners, and institutions to:

1. Reimagine how governance is structured and implemented
2. Break disciplinary silos in solving public problems
3. Center governance around human needs, ethical values, and sustainable futures

### ***Why “Transforming Governance”?***

Governance in the 21st century is at a critical turning point. Traditional models, often hierarchical, linear, and rigid, struggle to cope with the rapidly changing landscape of societal needs and global interdependence. Transformation is no longer optional; it is a necessity. This involves not only policy innovation but also rethinking institutional design, legal frameworks, digital infrastructure, and public participation. Governance transformation implies new ways of decision-making that are more inclusive, transparent, data-informed, and accountable.

### ***What is “Interdisciplinary Synergy”?***

The term interdisciplinary synergy refers to the intentional integration of knowledge, tools, and approaches from multiple disciplines to address complex governance challenges. This synergy goes beyond collaboration; it seeks convergence: a fusion of perspectives that leads to novel insights and comprehensive solutions. For instance, regulating artificial intelligence requires legal, ethical, technical, and psychological considerations. Similarly, tackling climate change needs environmental science, policy design, and behavioral economics.

### ***For “Global Welfare”***

The ultimate goal of transforming governance is to achieve global welfare, a holistic concept that includes:

1. Human dignity and rights
2. Access to essential services (education, health, food, housing)
3. Environmental sustainability
4. Equity and inclusion
5. Collective resilience

Global welfare is not merely economic growth; it is the equitable distribution of well-being across nations, communities, and generations. It requires international cooperation, institutional innovation, and evidence-based policy rooted in empathy and justice.

# ABOUT MIC 2025

## FORMAT OF THE CONFERENCE

**Keynote  
Lectures**

**Thematic Lectures and  
Discussions (Speaker)**

**Parallel Sessions  
Paper/ Poster Presentation**

### “Presenter *Call for Paper Speakers*”

The selected presenters have undergone an evaluation process conducted by the committee, which includes an in-depth assessment of the quality and relevance of their papers to the available themes and scope. They come from various disciplines to ensure diversity in perspectives and expertise.

**Indonesian**

**IDR 2.750.000**

**Foreign/ International**

**USD 100.00**

Main Session ☒

| Parallel Session ☒

| Publish Article ☒

### “Participant”

AICoPS 2025 will be attended by academics, researchers, master program students, education activists, and community organizations from various fields of study that are relevant to the topic and scope to discuss the urgency of the Conference.

**Indonesian**

**IDR 250.000**

**Foreign/ International**

**USD 20.00**

# ABOUT MIC 2025

## FOCUS AND SCOPE

*The following thematic tracks represent the interdisciplinary scope of MIC 2025. Participants may submit papers, panels, or projects that address one or more of these topics. Cross-cutting themes and comparative perspectives are encouraged.*

### ***Law, Justice, and Global Governance***

1. Regulatory frameworks for AI, data, and digital rights
2. International law and humanitarian protection
3. Legal pluralism and indigenous governance systems
4. Institutional accountability and legal innovation
5. Platform regulation and digital labor rights
6. Cybersecurity policy and digital sovereignty
7. Law Enforcement Governance and Oversight
8. Legal Aspects of Crisis Management
9. Judicial Reform and Access to Justice
10. Environmental Law and Climate Litigation
11. Comparative Constitutionalism and Rule of Law
12. Institutional resilience and adaptive leadership
13. Civil Law and Dispute Resolution
14. Human Rights and Anti-Trafficking (TPPO)
15. Public Administration and Legal Governance
16. Legislative Drafting and Regulatory Innovation

### ***Education, Learning Systems, and Social Equity***

1. Digitalization of education
2. E-learning governance
3. Education policy for resilience and inclusivity
4. Curriculum reform for global citizenship and sustainability
5. Learning discovery
6. Educational justice

### ***Health and Medical Research***

1. Health governance
2. Digital health, data ethics, and health equity
3. Mental health policies and psychosocial resilience
4. Health systems reform in low- and middle-income countries
5. Public Health System

# ABOUT MIC 2025

## FOCUS AND SCOPE

*The following thematic tracks represent the interdisciplinary scope of MIC 2025. Participants may submit papers, panels, or projects that address one or more of these topics. Cross-cutting themes and comparative perspectives are encouraged.*

### **Economic**

1. Digital economy
2. financial inclusion
3. Innovation policy and regulatory sandboxes
4. Green economy and just transition strategies
5. Informal economies and labor governance

### **Environmental Governance and Climate Policy**

1. Climate adaptation and disaster risk reduction
2. Environmental justice and ecological rights
3. Sustainable urban planning and green infrastructure
4. Renewable energy policy and governance transitions

### **Food Security and Agricultural Sustainability**

1. Governance of food systems and rural development
2. Agricultural policy, innovation, and climate adaptation
3. Nutrition justice and food access inequalities
4. Land use, agrobiodiversity, and indigenous food knowledge
5. Global supply chain resilience and food sovereignty

### **Technology, Digital Transformation, and Cyber Governance**

1. Algorithmic accountability and ethical AI
2. Smart cities, surveillance, and digital public services

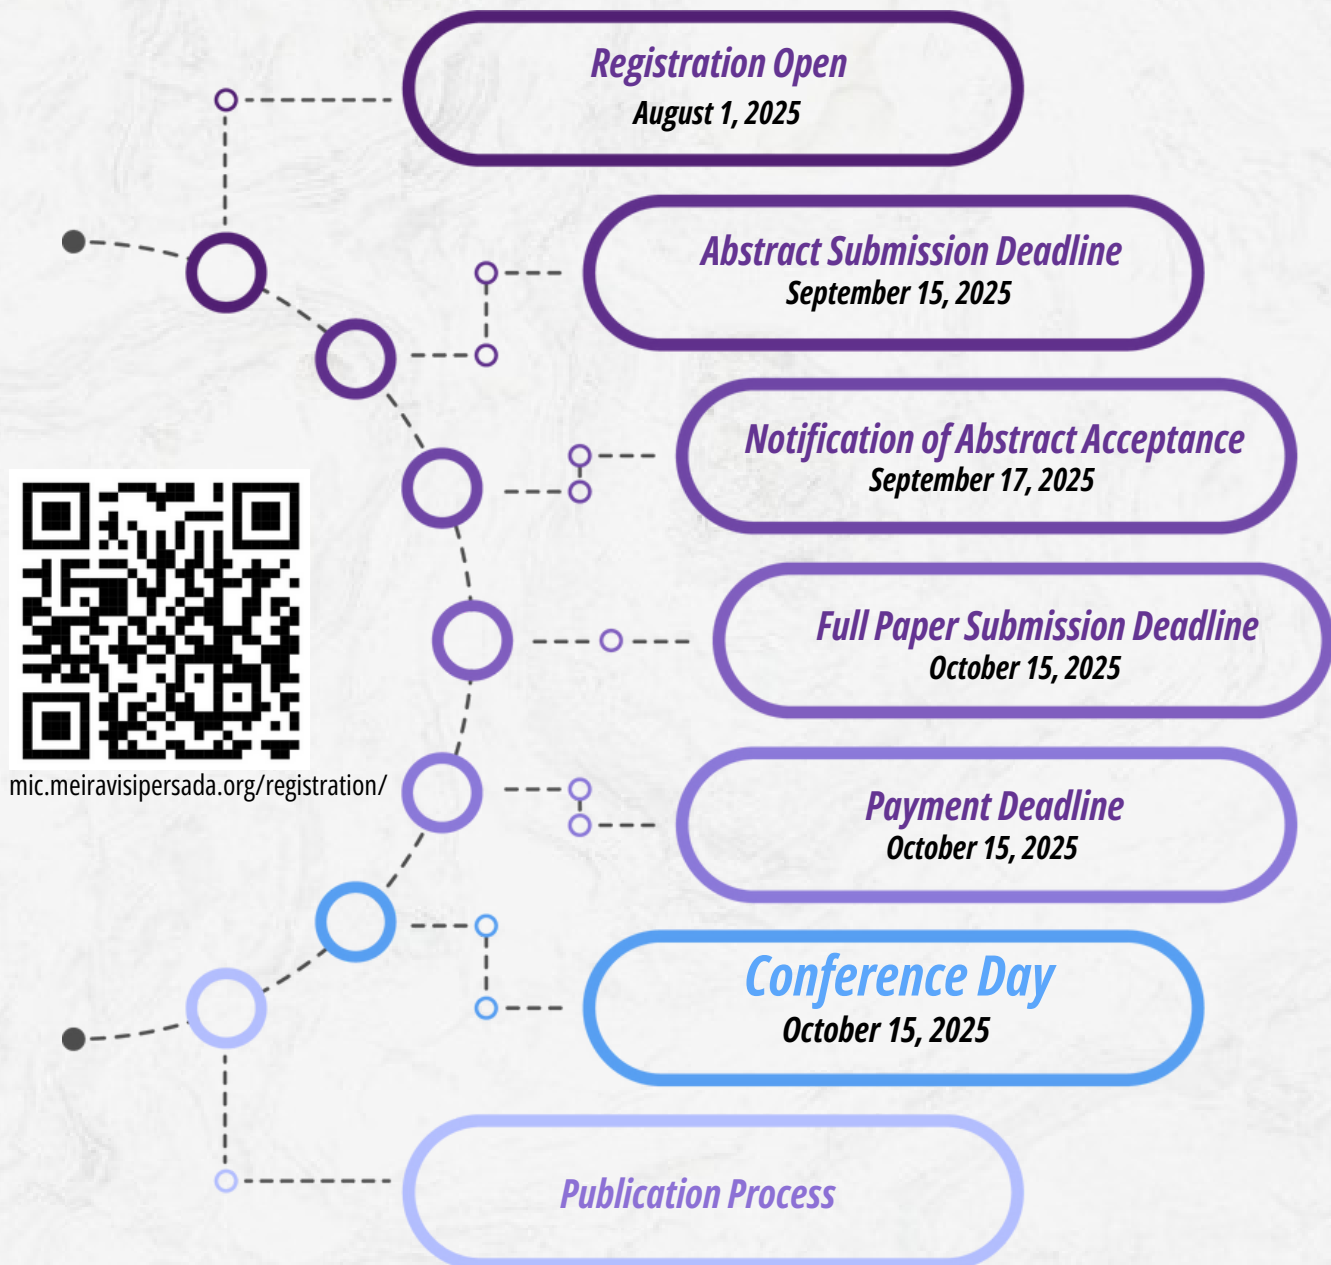

### **Social Cohesion, Conflict Resolution, and Political Psychology**

1. Polarization, populism, and democratic backsliding
2. Social movements and civic participation
3. Trust-building in public institutions
4. Migration, identity, and intercultural governance

# TIMELINE CALL FOR PAPER

## ***Abstract Submission Deadline***

1. Abstracts must align with the conference's designated thematic tracks.
2. Abstracts must be written in English, with a maximum of 250 words, using Times New Roman font size 12, single spacing.
3. Abstracts must include the title, author name(s), institutional affiliation(s), and email address.
4. Abstracts must be submitted no later than 15 September 2025 via the official website.
5. Accepted abstracts will be announced on 17 September 2025 via email and the official MIC website.
6. Full papers must be submitted no later than 15 October 2025.

# CO-HOST COLLABORATION

## Collaboration

We are pleased to invite you to collaborate with us as a co-host for MIC 2025.

By becoming a co-host, your institution will gain enhanced visibility, recognition, and valuable networking opportunities, while contributing to the success of the conference.

### Co-hosting collaborations include:

**1. Nominating a speaker**

- Provide an expert from your institution to present a keynote speech, panel discussion, or workshop.

**2. Submitting at least five research papers**

- Showcase your institution's research in our Call for Papers.

**3. Facilitating academic publication**

- Partner with us in publishing selected papers in reputed journals.

**4. Supporting conference marketing**

- Increase participation through your academic and professional networks.

**5. Sending Participants.**

We also welcome faculty members, researchers, and students from your institution to submit their research papers, present their findings, or attend the sessions as participants. This will provide a valuable platform to exchange knowledge, gain international exposure, and collaborate with scholars worldwide.

## Exclusive Benefits for Co-Hosts

**1. Institutional Recognition**

Receive an MoU, implementation agreement, and accreditation documents.

**2. Certification**

Earn certificates for participation, reviewing, and paper presentations.

**3. Research Impact**

Selected articles will have the opportunity for publication in internationally and nationally reputable journals.

**4. Networking & Collaboration**

Engage with leading scholars and institutions globally.

# POSTER

"Transforming Governance  
through Interdisciplinary Synergy for Global Welfare"

### WELCOMING SPEECH

**Meida Rachmawati, S.E.,  
M.M., M.H., Ph.D.**  
"Lecturer and Practitioner"

### OPENING SPEECH

**Prof. Dr. H. Faisal  
Santiago, S.H., M.M.**  
"Director of Post Graduate  
Program of  
Universitas Borobudur"

**Prof. Ir. H. Bambang  
Bernanthos, M.Sc**  
"Rector of Universitas Borobudur"

### KEYNOTE SPEAKER

**Prof. Matthew  
Francis**  
"Coventry University"

**Rizki Aulia Rahman  
Natakusumah**  
"The head of In-house  
Affairs Committee (BURT)  
of The House of Representatives  
of the Republic of Indonesia"

### SPEAKER

**Deilton Ribeiro  
Brasil, Ph.D**  
"University of Itaúna  
and Afya - Faculty  
of Sete Lagoas"

**Associate Professor  
Dr. Kandati Sai Chandu**  
"Siddharth Institute of  
Engineering &  
Technology (SIETK)"

**Elena E.  
Gulyaeva, Ph.D**  
"Department of  
International Law,  
Diplomatic Academy  
of Russian Ministry  
of Foreign Affairs"

**Jorge Isaac  
Torres Manrique**  
"President of the  
Praeeminentia  
Iustitia Interdisciplinary  
School of  
Fundamental Rights"

**Dr. H. KMS Herman,  
SH., MH., M.Si., CLA**  
"Universitas Borobudur"
